PROFESSIONAL SUMMARY

Growth-focused commercial leader with a track record of scaling B2C SaaS and B2B revenue systems from zero to significant scale. Grew a subscription SaaS platform to £100k MRR through full-funnel growth strategy encompassing paid acquisition, conversion rate optimisation, A/B testing, email lifecycle marketing, affiliate programmes, and cohort-based retention modelling. Equally experienced driving B2B revenue growth: delivered 3x growth in six months at a medical technology distributor by rebuilding the commercial engine from the ground up. Combines analytical rigour with hands-on execution to build scalable growth infrastructure, data-driven marketing systems, and high-performing teams.

CORE CAPABILITIES

Growth Strategy and Roadmapping · Full-Funnel Growth Marketing · B2C and B2B Revenue Growth · Conversion Rate Optimisation (CRO) · A/B and Multivariate Testing · Paid Acquisition (Meta, Google, YouTube) · Email Lifecycle and Drip Marketing · Affiliate and Referral Programme Management · Cohort Analysis and Retention Modelling · Customer Acquisition Cost (CAC) and LTV Optimisation · Go-to-Market Strategy (GTM) · Product-Led Growth · Sales Leadership and Team Scaling · Revenue Analytics · KPI Framework Design · Market Expansion and International Growth · Cross-Functional Leadership (Marketing, Product, Sales) · Data Analysis · AI native

TOOLS AND PLATFORMS

Google Analytics (GA4) · Meta Ads Manager · Stripe · Whop · TradingView (custom indicators) · Hyper · ShreyAuth · Excel and Google Sheets (financial modelling, cohort analysis) · Claude · Chatgpt

KEY ACHIEVEMENTS

- Scaled B2C SaaS platform to approximately £100k MRR through full-funnel growth strategy including paid acquisition, CRO, A/B testing, email lifecycle campaigns, and affiliate programme management.
- Delivered 3x B2B revenue growth within six months at Global Prostate Solutions, increasing monthly revenue from £18k to £56k.
- Built and managed paid acquisition across Meta, Google, and YouTube, optimising CAC and improving ROAS through systematic A/B testing of creatives, audiences, and landing pages.
- Designed and ran cohort analysis and retention modelling to identify churn drivers and improve customer lifetime value across a global subscriber base.
- Built affiliate and referral programmes driving low-CAC acquisition at scale across international markets.
- Expanded marketing team from 3 to 9, building a function covering paid acquisition, content, and lifecycle marketing.
- Secured first commercial sales in India for a B2B distributor, opening a new international market through a targeted go-to-market strategy.

PROFESSIONAL EXPERIENCE

Perfect Entry 2020 - Present

Founder | Head of Growth/ Growth marketing lead and Commercial Director

Founded and scaled a B2C SaaS platform delivering trading analytics and education to a global subscriber base. Operated as de facto Head of Growth with full ownership of acquisition, conversion, retention, and revenue strategy.

- Built and scaled the platform to approximately £100k MRR at peak, driving growth through a multi-channel acquisition strategy across paid media, organic content, affiliates, and online communities.
- Owned full growth funnel from awareness to activation: ran A/B tests across landing pages, pricing pages, and onboarding flows to improve conversion rates and reduce time-to-value.
- Designed and executed email drip campaigns and lifecycle marketing sequences to drive trial conversion, reduce churn, and increase subscriber retention.
- Built and managed an affiliate and referral programme, scaling low-CAC acquisition across international markets including the US, UK, Europe, and Asia.

- Ran cohort analysis and retention modelling in Google Sheets and GA4 to identify churn patterns, model LTV by acquisition channel, and prioritise product and marketing investment.
- Managed paid acquisition across Meta Ads Manager, YouTube, and Google, continuously testing creatives, audiences, and funnels to optimise CAC and ROAS.
- Led cross-functional teams across content production, marketing, and customer operations, scaling the team to support global growth.
- Built analytics dashboards tracking MRR, CAC, LTV, conversion rates, and engagement metrics to inform commercial decision-making.
- Designed pricing architecture, onboarding systems, and subscription retention frameworks to maximise customer lifetime value across tiered product offerings.
- Managed at peak 14 members of staff across all departments to make sure our common goals were being met

Global Prostate Solutions Ltd. 04/2025 - 11/2025

Business Development Manager

B2B commercial turnaround role at a medical technology distribution business. Hired to rebuild the revenue function and drive growth.

- Rebuilt the commercial and marketing infrastructure from the ground up, implementing scalable inbound acquisition systems to replace ineffective paid channels.
- Delivered 3x revenue growth within six months, growing monthly revenue from £18k to £56k through a restructured go-to-market strategy and improved sales processes.
- Scaled and managed the marketing function from 3 to 9 employees, building a team responsible for pipeline generation, customer acquisition, and distributor marketing.
- Introduced KPI-driven commercial reporting across marketing, sales, and distributor performance to improve visibility and accelerate decision-making.
- Strengthened distributor partnerships and expanded key account relationships to increase recurring revenue.
- Secured the company's first commercial sales in India, executing a targeted international go-to-market strategy.

Mather Engineering Ltd. 10/2024 - 04/2025

Commercial Development and Business Partnerships

- Secured new commercial partnerships, increasing machining job intake and capacity utilisation.
- Led strategic repositioning of the business into the automotive machining sector.
- Developed structured commercial acquisition processes, improving pipeline stability and forecasting.
- Strengthened recurring client relationships and long-term contract opportunities.

Black Art Designs and Austin Motor Company 07/2016 - 10/2020

Engineering and Operations

- Delivered 94% podium success rate across supported competition vehicles in multiple racing disciplines.
- Contributed to nationally significant prototype programmes including London Taxi (LEVC) suspension development and US Postal Service vehicle platform engineering.
- Developed strong delivery and operations capability in high-performance, high-pressure environments.
